Welcome to another great year of learning!

A reminder to all students travelling to and from Townsville, that there are a number of reliable transport services running to and from the Airport, Bus and Railway stations that can be used to reach your hotel. Students will need to utilise these services and also ensure they keep sufficient cash with them when travelling to and from training courses, to cover any expenses that may arise including any personal shopping you may like to do whilst visiting Townsville.

CTA is unable to claim the cost of city transport for students and CTA car insurance does not cover students travelling in private company vehicles. Therefore students are to take responsibility to reach the hotel by one of the available transport options mentioned above.

Taxi vouchers will no longer be dispensed at CTA, however students are able to claim full reimbursement of their city transport fees from Abstudy by retaining their travel receipts and lodging an "Fares Allowance Claim" form to Centerlink. A copy of this form is attached and can also be downloaded from the Centrelink website.

We hope your visit to Townsville is an enjoyable one and we look forward to seeing you in the classroom again soon.
